

REMARKS

The Non-Final Office Action dated October 16, 2009, ("Office Action") has been received and carefully considered. Reconsideration of the outstanding objection in the present application is respectfully requested based on the following remarks.

I. **THE ALLOWANCE OF CLAIMS 1, 6, 7, 17, 20-31, 33-38, 40, AND 41**

Applicant notes with appreciation the indication in the Office Action that claims 1, 6, 7, 17, 20-31, 33-38, 40, and 41 have been allowed.

II. **THE INFORMATION DISCLOSURE STATEMENT**

An Information Disclosure Statement and accompanying PTO-1449 form were filed on July 28, 2009 (the "July 28, 2009 IDS"). On page 2 of the Office Action, the Examiner asserts that, based on an initial review, the subject matter of the references cited in the July 28, 2009 IDS "seems to have nothing to do with the subject matter of the claimed invention." *See* Office Action, Page 2. The Examiner requests that Applicant review the references to see if any or all were submitted in error. If the Applicant intended to have each of these references considered, Applicant is requested to point out those references which "most closely are directed to the subject matter of the claimed invention." *Id.*

In response to the Examiner's requests, Applicant respectfully submits that the July 28, 2009 IDS was filed in an attempt to satisfy Applicant's duty to disclose to the Patent Office information known by Applicant that may be material to the patentability of the pending claims. As such, Applicant requests consideration of every reference cited in the July 28, 2009 IDS. In addition, since the filing of the July 28, 2009 IDS, Applicant has become aware of additional

information that may be material to the patentability of the pending claims. Those references are cited in a Supplemental IDS that is filed along with this response. Applicant respectfully requests consideration of all the references cited in the July 28, 2009 IDS and the Supplemental IDS. However, as requested by the Examiner, Applicant has reviewed the July 28, 2009 IDS and the Supplemental IDS and has identified the following references as being more closely directed to the subject matter of the claimed invention:
